Frequently Asked Questions

My car already has a manufacturer's warranty. Why do I need the Tire-Gard® Road Hazard Warranty?

A Manufacturer warranties don't cover damage caused by road hazards like potholes, nails, or debris. Tire-Gard® steps in where factory coverage stops, repairing or replacing your damaged tires so you're not left with unexpected costs.

What do I do when I have a flat tire?

A Just bring your vehicle back to the Selling Dealer. If your tire can be repaired, it will be. If not, it'll be replaced - all covered under your Tire-Gard® plan.

Do I have to pay any fees or charges?

A No. Tire repairs or replacements are covered in full under your plan, up to your contract's maximum coverage. You won't be out-of-pocket for eligible claims.

How many times can I use the coverage to repair or replace a damaged tire?

A You can make as many claims as you need, up to the total coverage limit outlined in your contract. That means you're protected through more than just one tire mishap.

Do I still need to check my tire pressure?

A Yes. Regular tire pressure checks keep your tires performing safely and help avoid uneven wear. Transport Canada recommends checking once a month, especially before longer drives.
